

**Dear Friends:**

**Project HEARTH Needs Handymen & Handywomen to Help Seniors in Montgomery County**

Several handypersons are needed to **occasionally** help homebound and frail seniors to remain independent by doing some minor home projects. By completing small projects such as: installing bath safety bars, fixing a broken banister, repairing faulty steps, replacing a broken window, repairing a leaky faucet, or installing a new door lock, or even changing a hard to reach light bulb, you will make a big difference in the life of a senior! These are all small home projects that seniors often need some help to take care of and can no longer do on their own. When a volunteer handyperson finishes one of these projects, our seniors feel very appreciative because they feel safer and they know someone cares about them. Your effort will help these seniors to remain independent and in their own homes for as long as possible.
